

My mission is to bring Filipino-made vehicles into the world. And the only way I can do that is by ensuring your success with our innovations.

Jaggy Gangat
CEO, Lycan Motorcycles Inc.

FOR PATROL & SECURITY

The Atlas II Pro enhances patrol and security operations with its agile maneuverability and customizable features, providing rapid response capabilities for surveillance and emergency situations.

What We Can Provide You

Lycan is a forward-thinking electric motorcycle manufacturer dedicated to crafting high-performance, long-range, and eco-friendly EVs tailored for distinct applications and needs.

Vehicle Production

Producing the Atlas II Pro locally ensures faster delivery, responsive customer service, and greater customization options tailored to the specific needs of clients.

Charging & Swapping

With charging and swapping stations for the Atlas II Pro, users enjoy uninterrupted operations and extended range, ensuring maximum productivity and efficiency in their daily tasks.

Custom Design

Tailor the Atlas II Pro to your specific needs with customizable features, ensuring optimal performance and functionality for diverse applications.

Servicing & Maintenance

Ensure seamless operation with Lycan's comprehensive maintenance servicing, providing peace of mind and reliability for your Atlas II Pro.

Technology

Optimize efficiency and control with Atlas II Pro's cutting-edge IoT technology and fleet management system, empowering you to monitor and manage your fleet with precision.

90min
0-80% S.o.C.

Battery
Li-Ion
swappable

**Your trusted companion for
every mission, every task,
every day.**

Atlas II Pro EV

The Atlas II Pro is a robust, versatile electric utility vehicle engineered to navigate diverse terrains and weather conditions while supporting heavy loads. Its customizable design allows for the integration of specialized accessories to enhance operational efficiency and adaptability.

FOR DELIVERIES

The Atlas II Pro revolutionizes courier deliveries and logistics with its rugged design, powerful performance, and customizable features for seamless navigation and efficient transportation of goods.

FOR EMERGENCY MEDICAL SERVICE

The Atlas II Pro serves as a vital support vehicle for emergency medical service (EMS) first responders, offering swift navigation through traffic and tight spaces, along with customizable features tailored to accommodate essential medical equipment for immediate patient care.

FOR TACTICAL OPERATIONS

The Atlas II Pro provides essential support for military and tactical operations, offering rugged durability, maneuverability in diverse terrains, and customizable features to adapt to mission-specific needs with precision and efficiency.

BATTERY SWAPPING

With the Atlas II Pro's battery swapping capabilities, downtime is minimized, ensuring continuous operation and maximizing productivity anytime, anywhere.
